

## **GAME WORLD ROMANIA – BUCHAREST MALL VITAN**

*Game World Romania is part of Game World Group, one of the most experienced companies in Central and Eastern Europe in the field of electronic games.*

*The biggest gaming room in Romania, Game World Bucharest Vitan Mall, an area of almost 1,000 sqm, divided into several areas, has been successful for almost 15 years to successfully reinvent the same adjective: innovative to superlative.*

### **Project requirements**

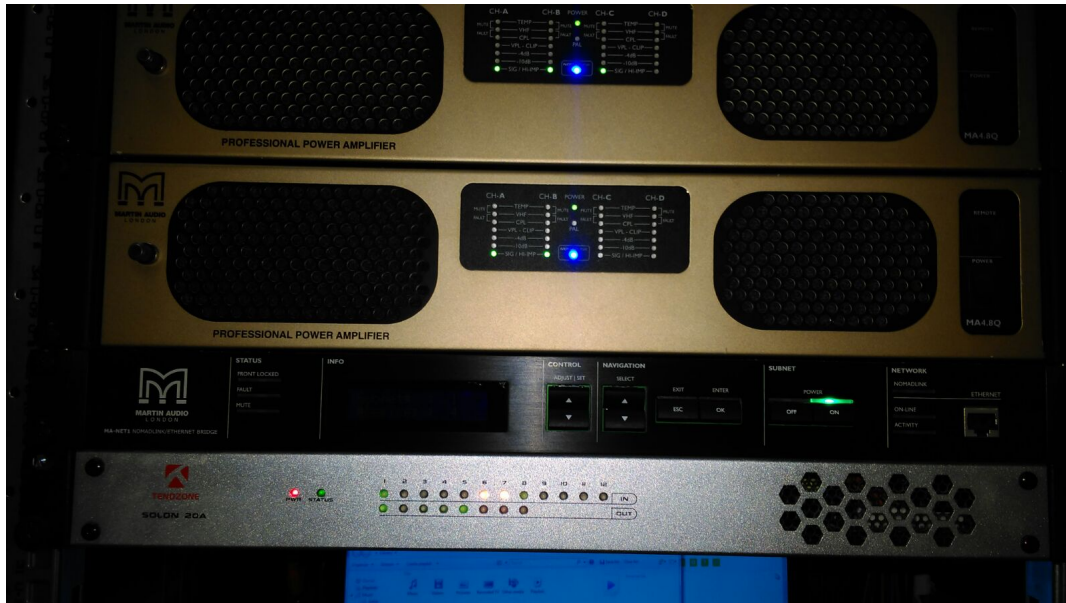

*Independently controllable areas as volume and signal source  
DSP, mixer; Ducker function*

## Project design;

Several audio signal sources are switched to the processing unit and then to different zone amplifiers and different audio receivers.

## Installed Tendzone item

SOLON 20A

## Customer Feedbacks

Attila Incze, Project Manager declared: „I am fully satisfied of the quality of the TENDZONE SOLON Unit considering that the exploitation of products are 24/24 hrs operating conditions and include all the functions we are interested in and all in one single 1U rack”.
